Dear Mr. Sieler:

We need to take this opportunity to inform you that the Albion municipal dump and landfill site cannot be approved by this agency for the disposal of liquid industrial wastes. This will necessitate your finding an alternate site prior to applying for a Liquid Industrial Waste Hauler's License for 1971. We will allow for the continued use of this site if necessary until 1971. However, it appears that land south of your garage would be quite suitable for such use.

The reason for our decision on the municipal site east of Albion is because of the homes on East Michigan Avenue which rely upon wells for their water supply. We must not take a chance on improperly treated waste seeping into the ground, and possibly affecting ground water quality.

If you have any questions on this feel free to call this office.

Very truly yours,

WATER RESOURCES COMMISSION

Chester Harvey
